

project type

New Facility

project name

Corporate HQ - R&D,
Production, Distribution

location

Erlanger, Kentucky

client

scope

Wild Flavors utilizes a wide range of processes to formulate product lines in a number of areas, including flavoring, food, beverage, health and wellness, and coloring. They have developed innovative processes to introduce such cutting-edge products as Chefs' Shortcuts[®], beverage emulsions, packaging, and taste modification technologies.

PEDCO designed this attractive new facility to serve these and other specialty processes at the company's North American headquarters. The 190,000 square-foot facility consists of 60,000 square feet for R&D and administration functions, and 130,000 square feet for pilot plants and manufacturing.

services provided

Architectural, Interior Design, Civil, Mechanical, Electrical, Plumbing, Fire Protection
