PEDCO Engineer Recognized for Outstanding Achievement

Frederick W. Betz P.E, CxA, SPM, CEM, a senior mechanical engineer at PEDCO in Sharonville, was presented with the American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc. (ASHRAE) Distinguished Service Award on June 26th at the Society's 2010 Annual Conference in Albuquerque, New Mexico. The Distinguished Service Award is granted to individuals who have served ASHRAE with distinction on committees and have freely given their time and talent on behalf of the Society.

Since joining ASHRAE in 1984, Mr. Betz has served on a variety of Local Chapter and National Society Committees. His volunteerism has included: Member and President of Cincinnati Chapter; Regional Vice Chair – Chapter Programs; Member of Multiple Society Committees; Member Tech committee 8.2 – Centrifugal Chillers; Member Technology Awards Judging Committee; Presenter and Host for numerous Seminars and Programs at the Society's Annual Meetings; and Society Director and Regional Chair.

“The ASHRAE organization contributes tremendously to advancing our industry through items such as research projects, development of Standards and production of

Handbooks and educational programs. I have been honored to be a part of these initiatives over the past 25 years. ASHRAE is a fantastic organization to be involved with and I am fortunate to have been able to advance both professionally and personally because of this involvement.” commented Mr. Betz. “As I move on to other engagements within the Society, I look forward to seeing ASHRAE continue to develop sustainability methods and standards and educating our profession.”

About PEDCO

PEDCO was founded in 1981 and has offices in Cincinnati and Fort Wayne, Indiana. PEDCO serves a variety of premier clients in industries ranging from corporate, industrial, health care, education, working environments, and facility services. PEDCO’s team includes LEED® accredited professionals and designers of high-performance green buildings. Projects range in size from small consulting engagements to comprehensive design services on significant projects.

About ASHRAE

The American Society of Heating, Refrigerating and Air-Conditioning Engineers advances the arts and sciences of heating, ventilation, air conditioning and refrigeration to serve humanity and promote a sustainable world. Membership is open to any person associated with the field including indoor air quality, building design and operation, and environmental control for food processing and industry.
